**Subject: Domestic Well Location Results**  
**5352 Old Redwood Highway, Santa Rosa, California**  
**SCDHS-EHD Site #00014186; NCRWQB Site #1TSO770**

Dear Mr. Holtz:

This letter presents the results of a domestic well location activity as recommended during a June 2005 telephone conversation. The subject site is approximately located as shown on the Site Location Map, Plate 1.

On June 21, 2005, a site visit was performed to approximately locate domestic wells within the vicinity of the subject site. The domestic well location activities concentrated on adjacent parcels located at 5340, 5330, 5328, and 5320 Old Redwood Highway which are all owned by the Chico Formation. In addition, approximate locations of domestic wells within 750 feet from the subject site, as previously identified in our October 7, 2003 *Sensitive Receptor Survey*, were observed. The approximate locations are shown on the attached Vicinity Map, Plate 2.

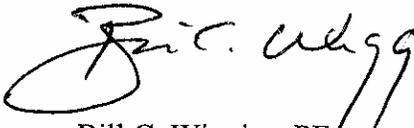

It should be noted that the domestic wells identified at 5340, 5330, 5328, and 5320 Old Redwood Highway will be destructed under permit as part of the Chico Formation's re-development program. In addition, based on conversations with a business owner at 5368 Old redwood Highway, the southerly domestic well located at 5368 Old redwood Highway is currently non-operative and water is supplied by the well located towards the northeasterly corner of the property.

We appreciate the opportunity to be of service to you and trust that this provides the information you require at this time. If you have any questions or require any additional information, please feel free to contact us at (707) 575-8622 or [www.transtechconsultants.com](http://www.transtechconsultants.com).

Sincerely,  
TRANS TECH CONSULTANTS

Brian R. Hasik
